## Maitland Lutheran School

### COVID UPDATE 27-7-21

Dear Parents/Carers

A quick update in preparation for returning to school tomorrow. Many of you will be aware that the Police Commissioner Grant Stevens advised on radio this morning that mask wearing will be mandatory for all Teachers, High School Students (Yr 7 and above) and all Adults on a school site. As yet they have not updated in what situations the masks will be required to be worn including on school buses.

It would however be prudent to make arrangements to have a mask for your child (Yr 7 and above) tomorrow particularly if they have a favourite one. Our school confirms that we will have masks onsite tomorrow for those who don't have one.

The preference will be for adults to not enter the school site but to do business by phone or email. If you must enter the school site a mask must be worn and scanning of the COVID QR Code is mandatory.

We are pleased to be able to welcome students back tomorrow when face to face learning resumes. As our teachers will be committed to changing back to this mode of delivery there will be no online learning offered after today.

It is expected SA Health and SAPOL will update us further this afternoon. I will provide a further update when this has happened.

We look forward to the students return tomorrow.

Blessings

**David Field**
